WHAT IS POOGIRL?

PooGirl **\$QUEEF** is the main form of currency used for services on www.poogirl.net. Built into the currency is a total supply of 69 billion and a 12% tax divided evenly into three necessary functions. Those taxes include:

- 4% Rewards
- 4% Liquidity
- 4% Marketing/Development

The services that will utilize PooGirl will include (not in any particular order):

- Advertising other tokens on PooGirl
- PooGirl Charts (Coming 2022)
- QUEEF Lottery Competitions (Testing phase)
- NFTs (Will be very last phase of development)

REWARDS

PooGirl uses 4% of every transaction and buys PooCoin with it. Then, she distributes all the PooCoin among every holder. Those who hold more PooGirl will receive more PooCoin!

These rewards are also based on volume. The more active trading is the more rewards you will receive!

Every 24 hours or less, on average, the PooCoin rewards are distributed to your wallet. If you want to claim your rewards sooner, please do the following:

- **Go to the "write" contract section of the contract on BSCScan**
- **Connect your wallet where it says "web3"**
- **Scroll down to the "claimDividend" button and click it**
- **Follow the steps inside your particular wallet**
- **Refresh your PooCoin balance and see your rewards!**

LIQUIDITY

Another 4% of each transaction will be used to add liquidity to the LP (liquidity pool). Adding liquidity to the LP will allow for increased price stability.

Continued growth of the liquidity will eventually allow for a significantly lower price impact when buying or selling, giving investors added confidence and peace of mind.

In addition to what is mentioned above, the lock of the LP (lock means eliminating access) will periodically continue to extend!

MARKETING/DEVELOPMENT

Finally, 4% of every transaction will find it's way to the Marketing/Development wallet.

The purpose of these funds are to promote PooGirl to as wide of an audience as possible.

Cryptocurrency completely depends on product recognition and awareness. This is why you see "legitimate projects" struggle and "meme coins" thrive.

Finding the highest quality audiences and maintaining exposure to these audiences is very important. We want to take care of the marketing so you don't have to!

Spread the word responsibly. Mindless shilling doesn't work anymore. Come together to expand our exposure as a whole!
